Commercial • Government • Institutional Project Support

CAPABILITY STATEMENT

COMPANY OVERVIEW

Blue Sonic supports commercial, institutional, and government clients with construction-related field services, demolition, debris removal, logistics, site support, and coordinated specialty-trade execution. Our approach centers on clear scope review, responsive communication, qualified trade coordination, and disciplined follow-through.

CORE CAPABILITIES

- Selective demolition and interior tear-out support
- Construction debris removal, cleanouts, hauling, and site clearing
- Construction and field-support coordination
- Roofing, HVAC, doors, windows, flooring, and facility-improvement coordination
- Equipment moves, furniture relocation, material handling, and logistics
- Vendor, subcontractor, scheduling, documentation, and closeout coordination

PROJECT DELIVERY APPROACH

- Scope Review & Planning - review requirements, site conditions, schedules, and logistics
- Qualified Trade Coordination - align specialty subcontractors and suppliers to project needs
- Field & Site Support - support demolition, cleanup, material handling, and site readiness
- Project Communication - maintain clear coordination among clients, trades, suppliers, and stakeholders

WHY BLUE SONIC

OWNER-LED COMMUNICATION

Responsive direct involvement in client communication and project coordination.

FLEXIBLE EXECUTION

A practical model built around field support and qualified specialty-trade relationships.

MULTI-SCOPE COORDINATION

One point of coordination across demolition, cleanup, logistics, and specialty trades.

CURRENT BUSINESS DEVELOPMENT FOCUS

Federal Construction Support

Federal construction and facility-support opportunities involving site logistics, demolition support, debris removal, field coordination, and specialty-trade support.

Commercial Site Services

Demolition, cleanouts, debris removal, material handling, moving, logistics, and coordinated project support for general contractors and commercial clients.

Demolition & Cleanup

Expansion of Blue Sonic's capacity to support renovation, construction, and facility projects with demolition assistance, debris handling, hauling coordination, and site cleanup.
